

# ATA®

## PRO SHIELD®

“ADVANCE TECHNOLOGY ARMOR”

### HAND ARMOR

FOR TODAY'S BATTLE AGAINST CUTS, BURNS AND LACERATIONS

### CUT LEVELS: CE 5 ANSI 4

**FOAM NITRILE  
PS-505**

**BLUE LATEX  
PS10-BDB**

**POLYURETHANE (PU)  
PS-500**

#### CUT & LACERATION PROTECTION

Ergonomically designed and engineered to reduce hand fatigue while providing unsurpassed grip, dexterity, comfort and touch sensitivity. The PS 500 & 505 Ultra shear and the PS10-BDB, high performance gloves, provide the highest levels of protection from hazards such as cuts, lacerations, abrasion and punctures.

The Pro Series® line of gloves from Double D Knitting and Glove Inc, featuring ATA®, provide superior grip, abrasion and cut protection. The PS-500 is PU coated and rated CE Cut Level 5, ANSI cut level 4. The PS-505 is foam nitrile coated and rated CE Cut Level 5, ANSI cut level 4. The PS10-BDB is blue latex coated. The wrinkled texture provides maximum wet grip strength and is rated CE Cut Level 5, ANSI cut level 4.

ATA – Pro Shield hand protection utilize a patented 21<sup>st</sup> century engineered yarn utilizing Aramid and Glass core construction that provides the highest levels of cut protection.

- Protection from sheet metal, glass and other hazards commonly found in today's working environment.
- Nitrile, PU (Polyurethane) and blue latex rubber palm coatings available for a grip to match your application.
- Uses: auto assembly, manufacturing, glass handling, sheet metal, construction, material handling, etc.
